

Bien pensé

branchée, apportant un vent d'imagination et de bien-être à un concept éculé. **La plage propose trois espaces astucieusement délimités**, par la décoration et les codes couleurs. La clientèle est comblée et choisit entre le **Zen**, la **Fun Attitude**, ou l'**Ambiance Famille**. On y trouve transats, cabanes, gazebos, hamacs, un espace bien-être dédié au massage, un salon ombragé pour le wi-fi, et les compositions naturelles du **chef japonais Kei (une étoile au Michelin)** qui joue une partition fooding version méditerranéenne particulièrement réussie!

Well thought out

Five years after the Hi Beach hotel opening - an urban hotel in the heart of Nice with a unique concept - the trio of Partrick Elouarghi, Philippe Chapelet, and the designer Matali Grasset have opened a Beach spot: the Hi Beach. It was the hit of the summer, the not to miss spot for hip crowd, and brought true imagination and wellness to an old concept. The beach offers three spaces that are cleverly defined by the decoration and color schemes. Pleasing to the client's eyes, they can choose between the Zen, the Fun Attitude, or the Family ambiance spaces. Lounge chairs, cabanas, gazebos, hammocks, a wellness space dedicated to massage, a wi-fi lounge shadowed from the sun, and natural compositions from the Japanese chef Kei (one Michelin star) that plays with Mediterranean flavors with great success!
